3. The following is an examiner's statement of reasons for allowance:

None of the prior art teaches or suggests a frequency hopping method as the current application. In specific, pseudorandomly selecting frequency from a set of N (total number of frequencies available) frequencies, where prior selected frequencies are prohibited from being selected again from the hopping set. Thus, repetition of frequency over time period T is reduced.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
